CODE	DESCRIPTION
KH106/	KIT, STEERER, LEFTY 1 1/8"/TAPER

Kit Contents:

1. Upper Clamp Reducer
2. Spacers
3. 1.1/8" Steerer
4. Lower Clamp Reducer
5. Tapered Lower Race Support
6. Lower Tapered Ring

Shaded items in the illustration are the headset parts and are not included in the kit.

DAMPER COMPATIBILITY

All Leftys produced between 2005 and 2012 are compatible with the PBR and XLR damping cartridges. Upgrading an older model is a great way to improve performance and can easily be done through Authorized Cannondale Dealers or Cannondale's own Factory Tech Room.

1. Identify the Year, Model, and Travel of the existing Lefty.
2. Using the **2012 DAMPER COMPATIBILITY CHART**, acquire the corresponding Damper, Solo Air, Outer Collar, and Schrader Plug Kits as required.
3. Remove the existing Lefty internals and inspect the I.D. of the inner leg. If scratches or blemishes are found on the inner leg, it should be replaced.
4. Prepare the damper for installation by installing the correct Solo Air Assembly (See the specific Kits List page for proper orientation

of the parts.) Use the 1/2" shaft clamp tool with vice or vise grips to hold the lower shaft when installing the solo air piston. Apply Loctite® 262 (red) to the piston threads and tighten to 3.4 Nm with a 6mm hex.

5. All Leftys using a PBR or XLR damping cartridge require the use of a race retention system. Identify whether the Lefty requires the use of either a "Clip-Clip" or "Clip Spacer".
6. Apply Loctite® 242 to the cartridge body threads and lubricate Solo Air Piston Assembly with a combination of high quality bicycle grease and suspension fluid.
7. Install the damper using a Cannondale Tool **KH103/ KH031/**. Tighten with a torque wrench to 27 Nm.
8. Install the Schrader Plug and Outer Collar Assembly. Torque each to 27 Nm.

DAMPER COMPATIBILITY

2012	LEFTY 29'ER PBR/XLR	90	PBR 140	90	YES	NO	KH085/	KH062/ - KH079/, KH082/	KH100/ - KH101/			
2012	LEFTY 29'ER PBR/XLR	100	PBR 140	100	YES	NO	KH091/	KH062/ - KH079/, KH082/	KH100/ - KH101/			
2012	LEFTY SPEED PBR/XLR	100	PBR 100	100	YES	NO	KH052/	KH087/ - KH086/, KH082/	KH100/ - KH101/			

NOTES:* When inner leg is replaced. New race clip compatible races must be installed.

** Add the three travel reducing clips from **HD010/** and the 25mm volume reducer from **KH076/** in addition to the 156mm volume reducer from **KH052/**.

ADJUSTMENT

Setting Sag

Sag is the distance the LEFTY compresses when the bike is statically loaded with your body weight in your riding position. Set it according to the LEFTY travel. Sag is set by changing the air pressure through the Schrader valve at the bottom of the LEFTY.

Set Recommended Initial Air Pressure (Set before measuring sag)				
26ER		RIDER WT. (Kg)	29ER	
PSI	Bar		PSI	Bar
81	5,5	55	94	6,6
88	6,0	60	101	7,2
94	6,5	65	109	7,8
101	7,0	70	116	8,4
107	7,5	75	124	9,0
114	8,0	80	131	9,6
120	8,5	85	139	10,2
130	9,0	90	150	10,8
140	9,5	95	161	11,4
150	10,0	100	173	12,0
156	10,5	105	180	12,6

Be aware that conventional pump gages have variations. Therefore, we recommend you to fine tune your set up with the Recommended Sag.

Fine Tune to 25% Recommended Sag (Adjust the air pressure +/- to set this sag)				
LEFTY TRAVEL (mm)	130	120	100	90
25% SAG (mm)	32	30	25	22
20% SAG - Minimum	26	24	20	18
30% SAG - Maximum	39	36	30	27

LEFTY AIR PRESSURE LIMITS: Minimum: 50 psi, 3.4 bar / Maximum: 225 psi, 15.5 bar

MAINTENANCE

Schedule

This schedule is intended as a guide only. You must establish a schedule appropriate to your riding style and conditions.

SERVICE ITEM	FREQUENCY (NORMAL RIDING)	WHO?
Check for damage	Pre/Post ride	Bike owner
Check for Tightening Torques	First Ride / Every 4-5 rides	Bike owner
Replace Frame Bumper, Guard	As Needed	Bike owner
Manual Reset	50 hours	Bike owner
Telescope Lubrification	100 hours	Dealer
DamperService: Air spring/Damping Cartridge Inspection	100 hour or every year	Dealer
Full Service (Telescope Rebuild + Damper service)	200 hours	Headshok Service Center
RACING - If you race with your LEFTY, you will have to perform the items listed twice as often. (i.e. 50hrs becomes 25hrs)		

Manual Reset

NOTICE:

Do not open the upper collar for the manual reset procedure

Perform every 50 hours.

1. With your bike on the floor.
2. Cover the brake rotor with a clean shop towel.
Remove the Schrader valve cap and hold the valve to release all air pressure. It is normal for a small amount of oil to be expelled with the escaping air.

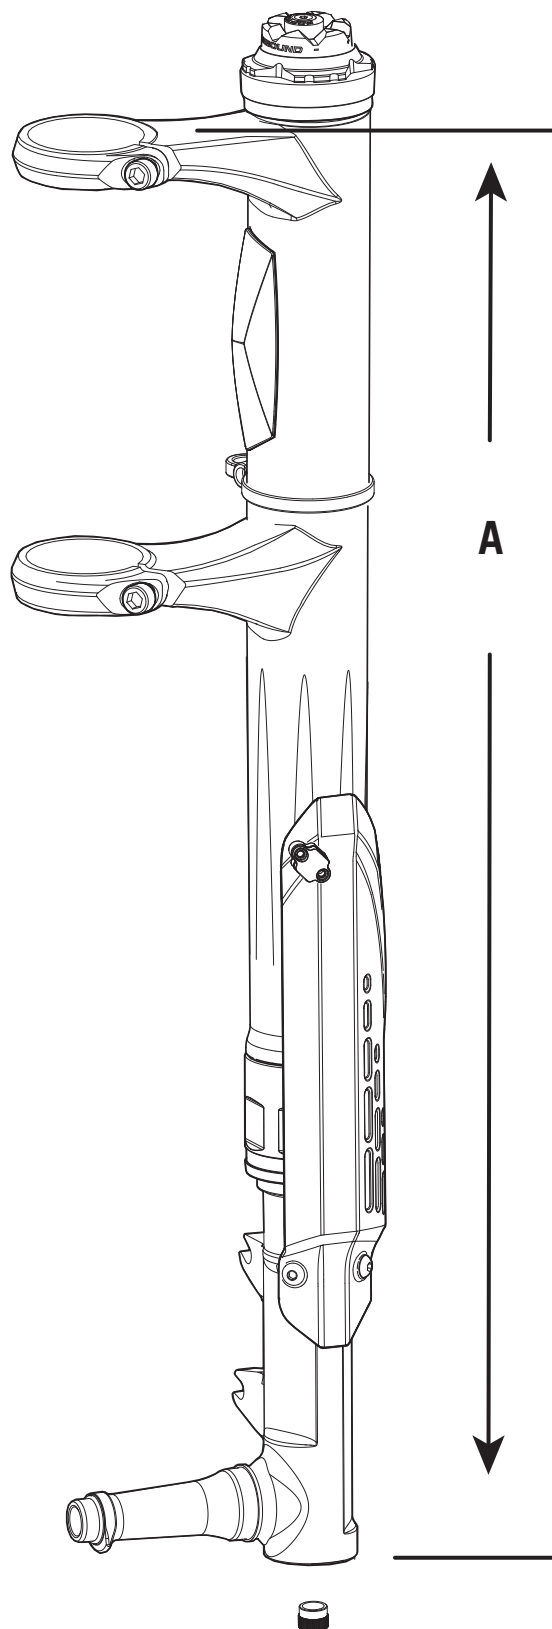

WARNING

Contamination can result in reduced or lost braking performance.

3. Hold the valve open while fully compressing the LEFTY with the the handlebar until it bottoms out. With the air out, using moderate force, bottom out the LEFTY firmly several times.
4. Now, measure from the bottom of the spindle to the top of the outer collar. Repeat step three until the correct measurement for your LEFTY is reached.

LEFTY	LENGTH (A)
29"	578 +/- 3mm
26"	548 +/- 3mm

5. When you are finished, reset sag.

Measure Fully Compressed

2011 Cannondale is introducing The Lefty and Fatty Damper Exchange Program, called SWOP.

This program delivers a new alternative to the regular fork service. To ensure best performance and safety, the owner's manual that comes with every bike outlines the required maintenance.

SWOP creates the best possible care for 2011 Fatty and Lefty's.

Once the season starts people realize that their bike/suspension needs service. This usually results in congested workshops and delay. The new SWOP allows participating shops to handle our customer needs while they are having a cup of coffee.

In addition they get a new damper instead of a re-built and the old unit gets recycled.

Considering that the cost is similar to an average service, SWOP is the ultimate in service. All they need to do is to check with their local Cannondale dealer if he is participating, if their fork qualifies and make an appointment.

The chart below shows all in the program included dampers and the SWOP price for the consumer.

NOTE: LIKE FOR LIKE only!

WARRANTY POLICY

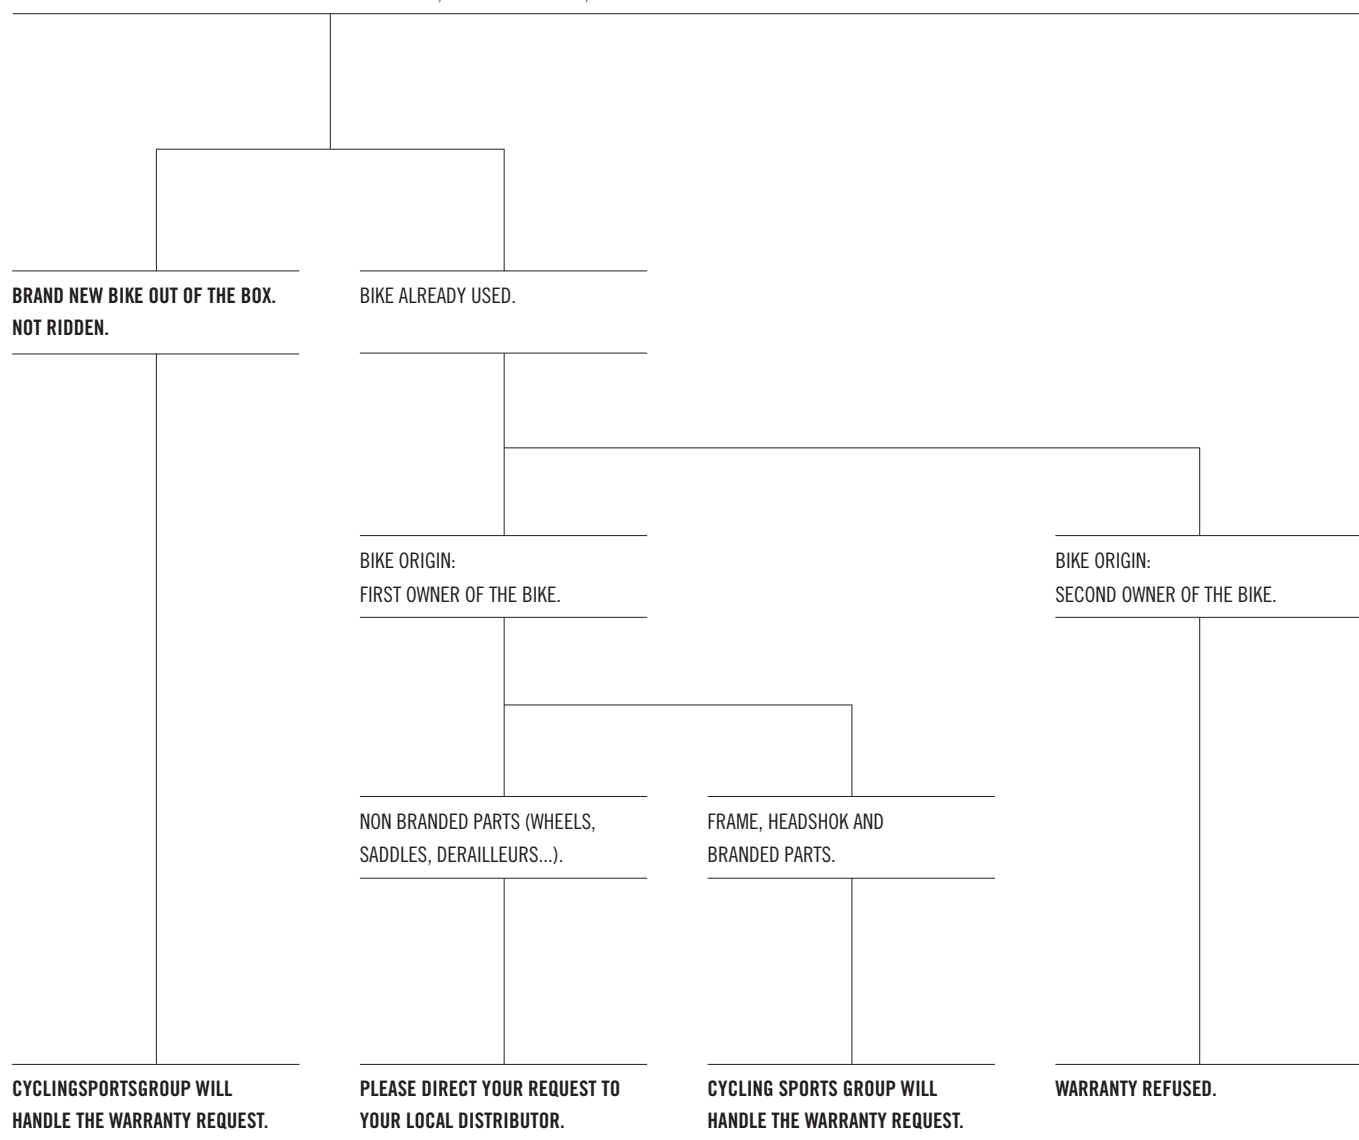

WARRANTY PROCEDURE

WARRANTY REQUEST

MANDATORY INFO: WARRANTY FORM, SERIAL NUMBER, PICTURES, PROOF OF PURCHASING
PROVIDE TO: SCANDINAVIA@CYCLINGSPORTSGROUP.COM, 00800 123 123 11, OPTION 3

Please always refer to the Owner Manual provided with the bike for any warranty/service situation. All claimed parts must be kept on hand until account manager's next visit or Tech Representative notice. We reserve the right to refuse warranty service to non warrantable claims. Always ask for a return number before sending anything back to our offices in Oldenzaal (NL). This number needs to be clearly written on the outside of the box.

NOTICE:

A complete documentation (Proof of Purchasing, Serial Number, pictures) will accelerate your warranty/service response. Any incomplete warranty request will not be handled.

LABOR COMPENSATION ON WARRANTY FRAMES

APPROVED WARRANTY DEFECTS:

For any valid claims for a bicycle within 2 years of purchase which require a complete frame change, cannondale will support the retailer with a labor credit of the following amounts for changing the parts to the new frame:

ALL BIKES	FULLY EQUIPPED URBAN BIKE	SWINGARM
50 €	75 €	25 €

The policy only applies to the frames covered under the standard manufacturers warranty policy.

DAMAGES ON NEW BIKE SHIPMENTS (DAMAGED UPON ARRIVAL)

- If damage on the parcel is visible at time of receiving, it needs to be reported in writing on the proof of delivery.
- If there is no written comments made on the proof of delivery at time of receiving, any other damage notices on the content of the parcel needs to be reported within 5 working days in writing to CSG Europe.

IN CASE A BIKE ARRIVES IN AN UNACCEPTABLE CONDITION (DENT, SCRATCH, ETC.)

OPTIONS

1. A pick up is issued and the full bike is returned to Oldenzaal. The replacement product is booked and shipped with free freight.
2. In case the damage is cosmetic and not structural, a discount can be offered after evaluation of the damage.

CRASH REPLACEMENT

In case damage occurs on a frame that cannot be covered under the Cannondale manufacturer's standard, we offer you and the consumer a reduced price for the frame replacement.

CONDITIONS

- Valid for the original owner only
- Valid for 24 months after the date of purchase
- Only applicable to the same platform

HOW TO PROCEED

- Use the Warranty Claim form and notify us about the crash replacement need
- Send pictures and POP
- CSG will come back with an offer

On warranty card:

☐ BRAND NEW BIKE☐ USED BIKE

Problem description:

Please send us a completed warranty form. Incomplete information will slow down our warranty process. Defective products might be requested back to our facility for further analyses. New frames/parts might therefore be invoiced. CSG keeps the right to make a credit or refuse the warranty at a later date.

Please remember: Do not forget to read **the bicycle owner's manual** which contains important safety and service information.
