2014 LEFTY FOR ALL

KH106/ 1.1/8" and 1.1/8" - 1.5" TAPER

CODE	DESCRIPTION
KH106/	KIT, STEERER, LEFTY 1.1/8" and 1.1/8"-1.5" TAPER

Kit Contents:

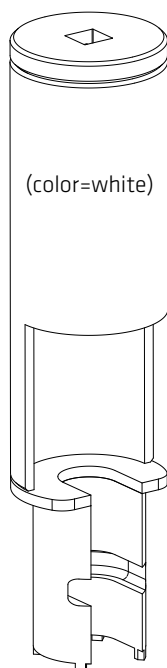

1. Upper Clamp Reducer
2. Spacers
3. 1.1/8" Steerer
4. Lower Clamp Reducer
5. Tapered Lower Race Support
6. Lower Tapered Ring

Shaded items in the illustration are the headset parts and are not included in the kit.

WARRANTY

CANNONDALE LIMITED WARRANTY

Cannondale HEADSHOK (SUPERMAX, LEFTY, LEFTY HYBRID, FATTY, and SOLO) suspension products are covered under the terms and conditions of the Cannondale Limited Warranty found in the CSG WARRANTY PROCESS section of this TECH BOOK or on the Policies page of our Cannondale website at: <http://www.cannondale.com>

Be sure to read the exclusions listed in the limited warranty. For example, damage from accidents and improper maintenance are not covered.

DEFINITIONS RELATED TO HEADSHOK PRODUCTS:

The fork structure is covered in the FRAMES section of the Cannondale Limited Warranty.

“Fork structure” means certain structural parts of the fork, specifically the fork legs, outer tube, the steerer tube, steerer tube clamps and the inner tubes with attached dropouts or spindle. Cable clamps, needle bearings, races, and bushings which are part of the TELESCOPIC assembly are normal wear and tear items and ARE NOT covered by the limited lifetime warranty.

The internal fork parts are covered by the 1 year (2 years in EU countries) warranty against defects in materials or workmanship described in the COMPONENTS section of the Cannondale Limited Warranty. “Internal fork parts” are defined as items such as damping cartridges and their internal parts, seals, o-rings, air cylinders, air pistons, springs, elastomers, bumpers, bushings, needle bearings, races, and oil. Normal wear and tear on these items is NOT covered by this 1 year (2 in EU) warranty. Like brake pads on a car, you should expect to have wear items professionally replaced or renewed as you use the fork.

FORK WARRANTY CLAIMS

For any warranty claim to be considered, the bicycle/fork must be brought into an Authorized Cannondale Retailer on the continent on which the bicycle/fork was purchased. The bicycle/fork must be in assembled condition and accompanied by the original, dated sales receipt for the bicycle/fork.

Dealer Locator at: <http://www.cannondale.com/Dealerlocator>

OPTION 1: DAMPER EXCHANGE - SWOP

SERVICING IN THE SHOP

The exchange program is for LEFTY/LEFTY HYBRID and FATTY forks. A damper exchange involves removing the internal cartridge and related parts and replacing them with new ones. Damper cartridge disassembly is avoided. Removal from the bike is not required.

Why an exchange program? Once the season starts people realize that their bike/suspension needs service. This usually results in congested workshops and delay. This method enables participating shops with the parts on-hand to perform the service quickly.

All dampers are completely new units. Removed dampers sent back to us are simply destroyed and sent for recycling.

Considering that an exchange cost is similar to an average service, this is the ultimate in fork service. Customer can call ahead for a participating Cannondale Dealer and schedule an appointment. No need to wait.

Please note that this is a like-for-like program. Internal components must be replaced with the same parts.

DAMPERS QUALIFYING FOR EXCHANGE

OPTION 2: DAMPER UPGRADE

All LEFTYs & LEFTY HYBRIDs produced between 2005 and 2013 are compatible with PBR and XLR damping cartridges. Upgrading an older model by removing the existing cartridge and replacing with the compatible XLR/PBR cartridge and associated parts is a great way to both renew and improve performance. Travel is maintained in most upgrade cases, although a small reduction may result. An upgrade using the parts kits listed in the chart (next page) can easily performed by Authorized Cannondale Dealers or by sending the fork to our Authorized Headshok Service Centers.

UPGRADE PROCEDURE:

1. Identify the Year, Model, and Travel of the older LEFTY or LEFTY HYBRID.
2. Locate the YEAR, MODEL, and TRAVEL or the existing LEFTY and order the corresponding kit codes (shown in shaded areas).
3. Remove the existing LEFTY internals and inspect the I.D. of the inner leg. If scratches or blemishes are found on the inner leg, it should be replaced.
4. Prepare the damper for installation by installing the correct Solo Air Assembly to the end. (See the specific Kits List page of the LEFTY for proper orientation of the parts.) Use a bench vice with 1/2" shaft clamp tool when installing the Solo Air piston on the shaft end. Apply Loctite 262 (red) to the piston threads and tighten to 3.4 Nm.
5. All LEFTYs using a PBR or XLR damping cartridge require the use of a race retention system. Identify whether the Lefty requires the use of either a "Clip-Clip," "Clip Spacer," or "Spiral Ring" (see bottom page).
6. Apply Loctite 242 to the cartridge body threads and lubricate Solo Air Piston Assembly with a combination of high quality bicycle grease and air piston lube.
7. Install the damper using the Cannondale Super Castle Tool. Use tool **KH031/** for LEFTY. Use tool **KH103/** for LEFTY HYBRID. Use tools **KH127/** and **KH123/** for SUPERMAX. Tighten with a torque wrench to 27 Nm.
8. Install the Schrader Plug and Outer Collar Assembly. Tighten outer collar to 27 Nm.

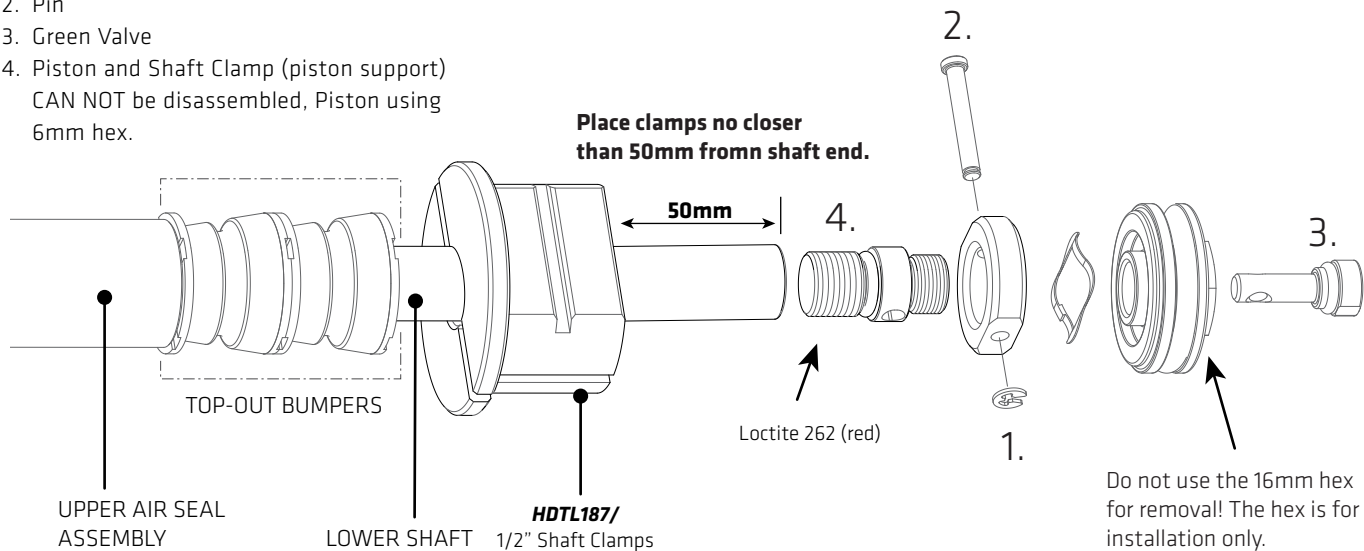

OPTION 2: DAMPER UPGRADE

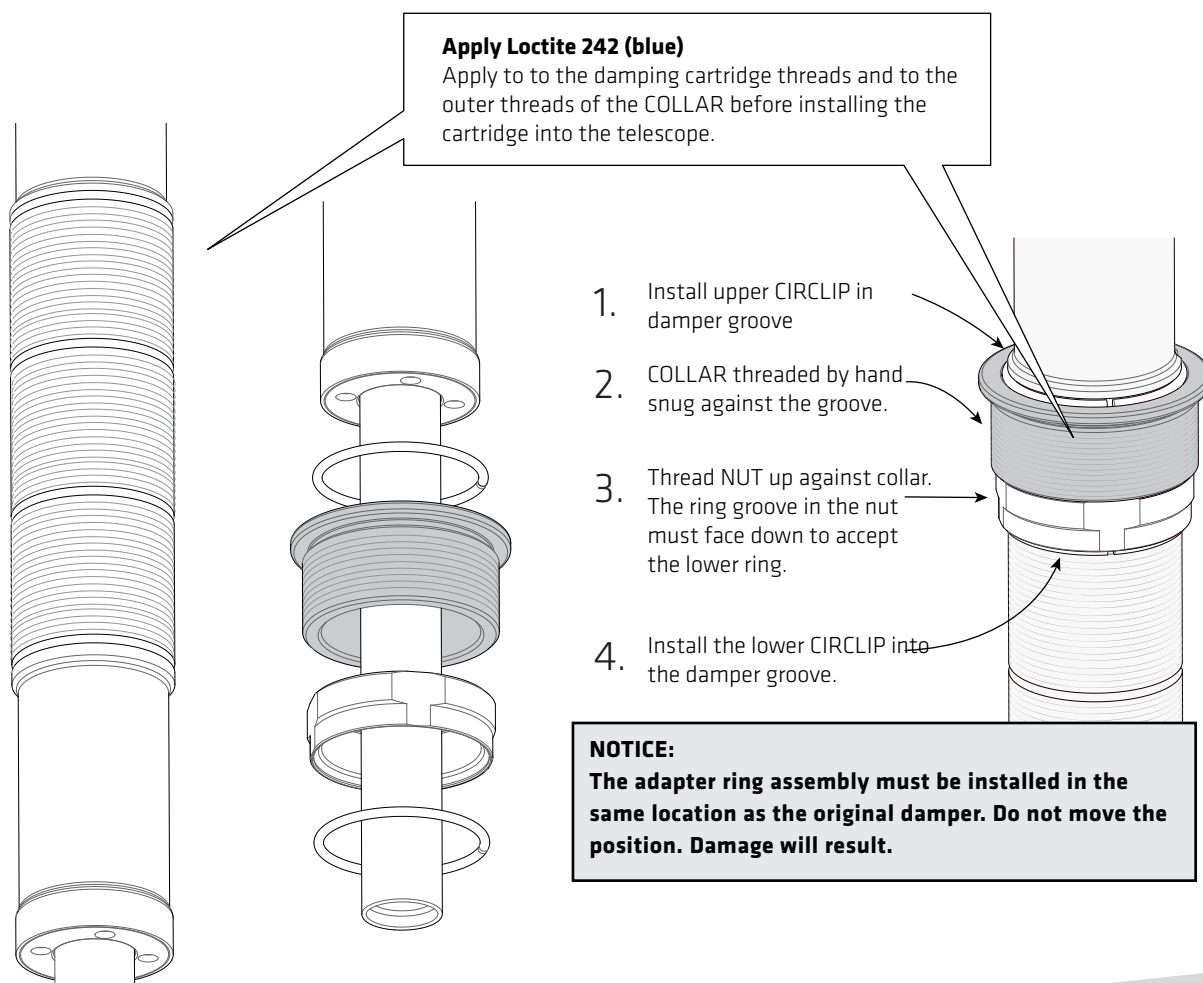

SOLO AIR X PISTON REMOVAL

Removal Order:

1. E-Clip
2. Pin
3. Green Valve
4. Piston and Shaft Clamp (piston support)
CAN NOT be disassembled, Piston using
6mm hex.

SUPERMAX CARTRIDGE ADAPTER RING ASSEMBLY

Racing can put additional strain on components and more frequent service is suggested for best performance.

FACTORY TECH ROOM or AUTHORIZED HEADSHOK SERVICE CENTERS

Annually at minimum, or when problems are indicated, Headshok products should be sent through a Cannondale Dealer to our Factory Tech Room or Authorized Headshok Service Center. These centers can also provide a variety of predefined services including disassembly, inspections, internal and external worn part replacement as well updates.

ADJUSTMENT

SETTING SAG

Sag is the distance the LEFTY compresses when the bike is statically loaded with your body weight in your riding position. Set it according to the LEFTY travel. Sag is set by changing the air pressure through the Schrader valve at the bottom of the LEFTY.

Set Recommended Initial Air Pressure (Set before measuring sag)				
26ER		RIDER WT. (Kg)	29ER	
PSI	Bar		PSI	Bar
81	5,5	55	94	6,6
88	6,0	60	101	7,2
94	6,5	65	109	7,8
101	7,0	70	116	8,4
107	7,5	75	124	9,0
114	8,0	80	131	9,6
120	8,5	85	139	10,2
130	9,0	90	150	10,8
140	9,5	95	161	11,4
150	10,0	100	173	12,0
156	10,5	105	180	12,6

Be aware that conventional pump gages have variations. Therefore, we recommend you to fine tune your set up with the Recommended Sag.

Fine Tune to 25% Recommended Sag (Adjust the air pressure +/- to set this sag)				
LEFTY TRAVEL (mm)	130	120	100	90
25% SAG (mm)	32	30	25	22
20% SAG - Minimum	26	24	20	18
30% SAG - Maximum	39	36	30	27

LEFTY AIR PRESSURE LIMITS: Minimum: 50 psi, 3.4 bar / Maximum: 225 psi, 15.5 bar

LEFTY HYBRID/SUPERMAX

MANUAL RESET

NOTICE:

Do not open the upper collar for the manual reset procedure.

Perform every 50 hours.

1. With your bike on the floor.
2. Cover the brake rotor with a clean shop towel. Remove the Schrader valve cap and hold the valve to release all air pressure. It is normal for a small amount of oil to be expelled with the escaping air.

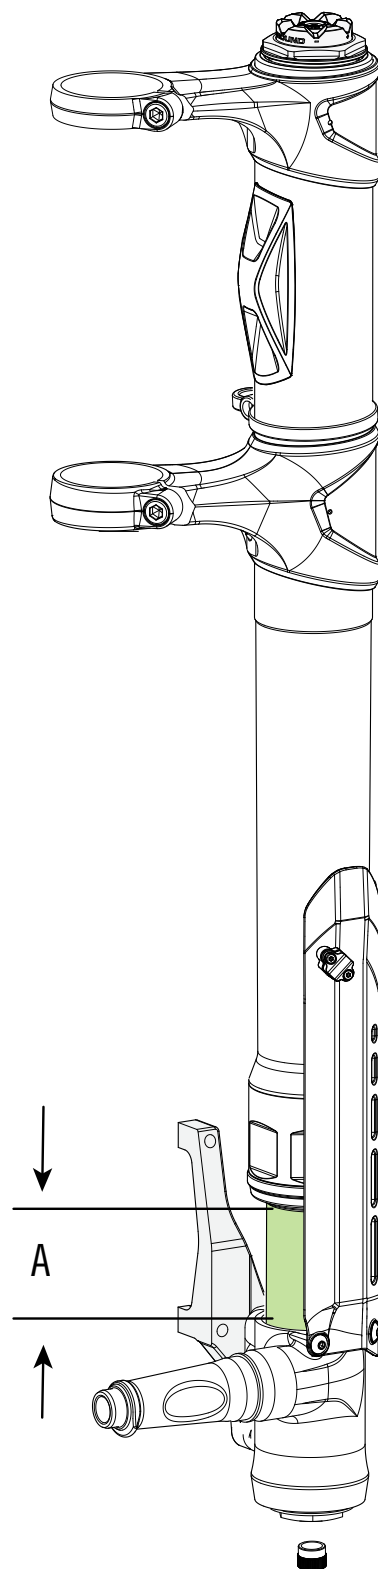

WARNING

Contamination can result in reduced or lost braking performance.

3. Hold the valve open while fully compressing the LEFTY with the the handlebar until it bottoms out. With the air out, using moderate force, bottom out the LEFTY firmly several times.
4. Now, measure from the bottom of the spindle to the top of the outer collar. Repeat step three until the correct measurement for your LEFTY is reached.

SUPERMAX	LENGTH A (MM)
29"	35 +/- 3
LEFTY HYBRID	LENGTH A (MM)
29"	35 +/- 3
26"	5 +/- 3

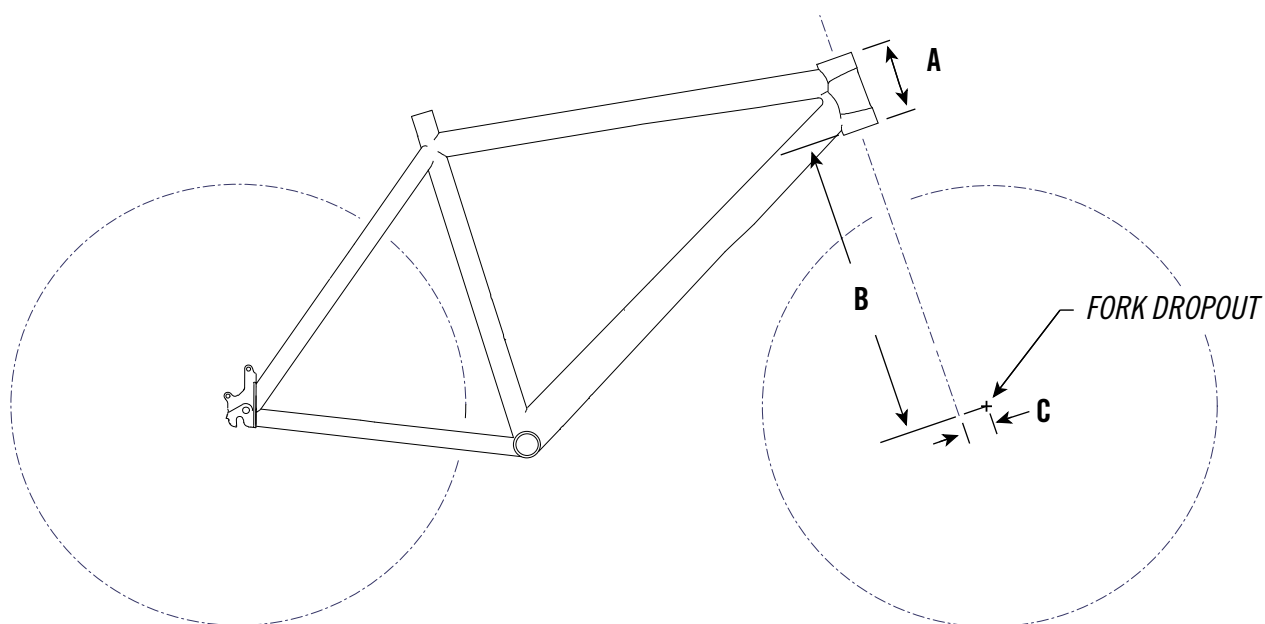

5. When you are finished, reset sag.

Measure Fully Compressed

HEADSHOK GEOMETRY

WARRANTY PROCESS

INFORMATION	78
TERMS OF CONDITION	79

INFORMATION

GENERAL INFORMATION

Cycling Sports Group has made investments to improve our Customer Service and ensure Warranty issues are resolved in an efficient manner so that our consumers can get back on the road or trail as quickly as possible. We know that having your bike or other product not functioning is never convenient so we implemented a new process and are providing you, the dealer, with this guide that outlines what your expectations from us should be as well as what we need from you in order to resolve all product related issues as painlessly as possible. We will continue to strive for improvements in our service, but here are the steps we are taking right now.

- **New B2B Warranty Module for creating and tracking your claims**
- **Expanded Warranty/Technical Support Team**

WARRANTY QUALIFICATION

- Warranty is valid for the original owner only. CSG requires proof of purchase before honoring any warranty claims.
- All warranty claims must be submitted through an Authorized CSG Dealer that supports the associated brand.

WARRANTY GUIDELINES BY CATEGORY

Category	Manufacturers Defect
Bike – Frame Cannondale	Lifetime - Manufacturers Defect *
Bike – Component	Manufactures Warranty
Lefty / Head Shock	1 year internals, Lifetime Structure – Manufacturers Defect
Cannondale Branded Crank Sets	Lifetime – Manufacturers Defect
Apparel and Accessories	Lifetime - Manufacturers Defect
Helmets	1 year

* Some exclusions apply, see Cannondale Bicycle Owner's Manual.

** See Aftermarket Frame Sheets for available options and pricing.

TERMS OF CONDITION

CANNONDALE LIMITED WARRANTY

The specific warranty covering your Cannondale bicycle is governed by the law of the state or country in which it was purchased, and applies only to bicycles purchased from Authorized Cannondale Retailers.

FRAMES: (frame, fork structure, swing arm): Cannondale frames (except frames for Freeride, and Dirt Jumping bikes, see below) are warranted by Cycling Sports Group, Inc., 16 Trowbridge Drive, Bethel, CT 06801 against manufacturing defects in materials and/or workmanship for the lifetime of the original owner.

Cannondale frames for Freeride & Dirt Jumping bikes (such as Gemini, Gemini DH, Judge, Perp and Chase) are warranted against manufacturing defects in materials and/or workmanship for a period of three (3) years from the date of original retail purchase. The Freeride / Dirt Jumping warranty does not cover any bike purchased and used for rental purchase. The Freeride / Dirt Jumping warranty differs from the warranty as stated in the Cannondale Owner's Manual only in its term. All other conditions apply.

COMPONENTS: All other components, including HeadShok and Lefty internal parts, suspension parts, frame fixtures and finishes (paint and decals) are warranted against manufacturing defects in materials and/or workmanship for a period of one year from the date of original retail purchase.

Suspension forks (other than those made by Cannondale) are not covered by this limited warranty, but are separately covered by the stated warranty of their manufacturer.

TERMS OF LIMITED WARRANTY

This limited warranty is not meant to suggest or imply that the bicycle cannot be broken or will last forever. It does mean that the bicycle is covered subject to the terms of the limited warranty.

This limited warranty applies only to the original owner of a Cannondale bicycle and is not transferable to subsequent owners.

For any warranty claim to be considered, the bicycle must be brought in to an Authorized Cannondale Bicycle Retailer on the same continent on which the bicycle was purchased. The bicycle must be in assembled condition and accompanied by the original, dated sales receipt for the bicycle. (Be sure to keep your receipt in a safe place.)

This limited warranty is void if the bicycle is subjected to abuse, neglect, improper repair, improper maintenance, alteration, modification, an accident or other abnormal, excessive, or improper use.

This limited warranty applies only to bicycles purchased in fully assembled and adjusted condition from Authorized Cannondale

Retailers or other outlets specifically authorized by Cannondale to distribute Cannondale bicycles.

Damage resulting from normal wear and tear, including the results of fatigue, is not covered. Fatigue damage is a symptom of the frame being worn out through normal use. It is one kind of normal wear and tear, and it is the owner's responsibility to inspect his/her bicycle. See Section 5. and D.

Damage resulting from corrosion is not covered.

Damage resulting from improper assembly or maintenance, or from installation of parts and accessories not compatible with the Cannondale bicycle, is not covered.

All labor charges for warranty service are the responsibility of the bicycle's owner.

During the duration of this limited warranty, CYCLING SPORTS GROUP, INC., will either repair any defective frame or component, or, at our option, replace any defective frame or component with the same or most nearly comparable model or component then available. This is the exclusive remedy under this warranty. Any and all other remedies and damages that may otherwise be applicable are excluded, including, but not limited to, incidental or consequential damages or punitive damages.

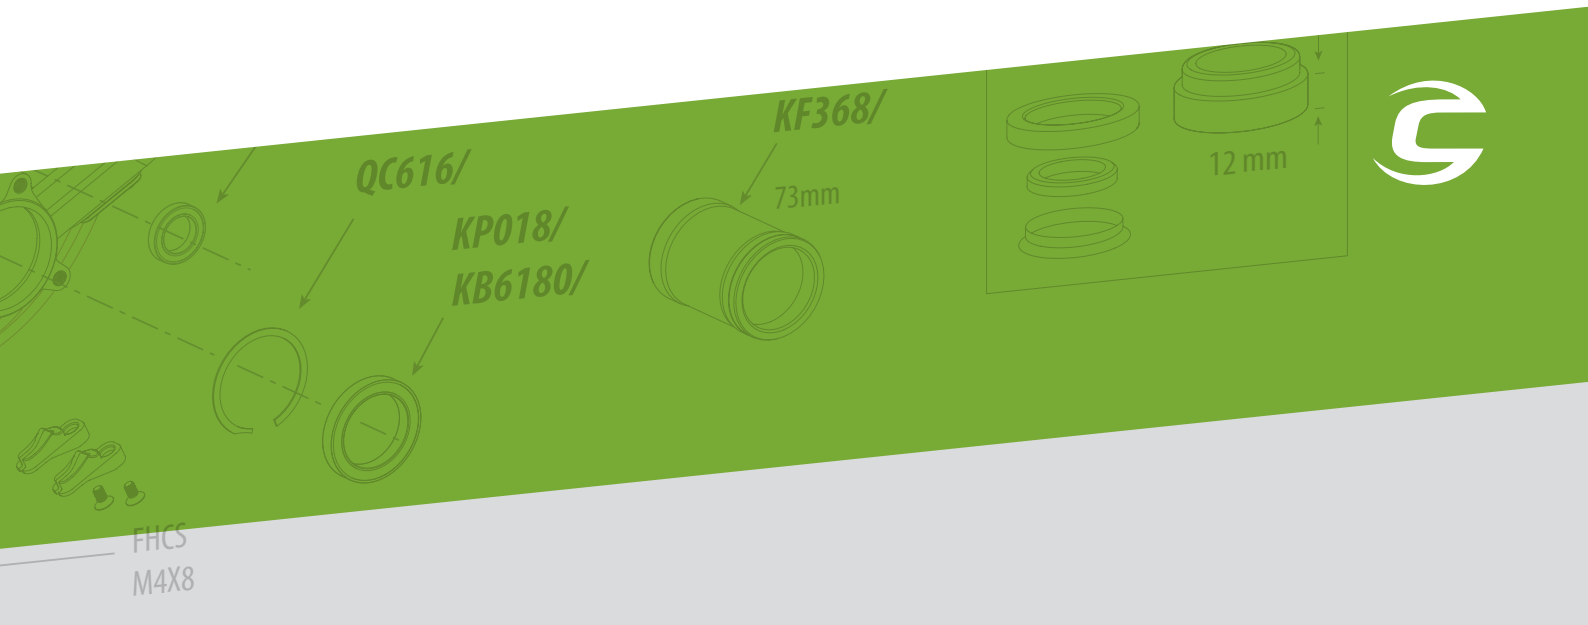

This is the only warranty made by cycling sports group, inc., On its frames and components, and there are no warranties which extend beyond the description herein. Any warranties that may otherwise be implied by law including, but not limited to, any implied warranty of merchantability or fitness for a particular purpose, are excluded.

Please refer to the documents included with your bicycle for possible further restrictions.

This Limited Warranty gives the consumer specific legal rights. The consumer may also have other legal rights which vary from state to state or country to country. Some states and countries do not allow the exclusion or limitation of incidental or consequential damages or warranties, so the above limitations or exclusions may not apply to you. If it is determined by a court of competent jurisdiction that a certain provision of this limited warranty does not apply, such determination shall not affect any other provision of this limited warranty and all other provisions shall remain in effect.
