SPECIFIC COMPONENTS

4F. 1X11
 5mm CL Offset
 76 BCD
 Laser Etch:
 "A2 SRAM 1X CL_55.6"

4E. 2X10
 5mm CL Offset
 64X104 BCD
 Laser Etch:
 "A2 SRAM 2X10 5mmCL"

**PLEASE NOTE:**

The bearing lands (areas shown shaded) of the 137mm Ai compatible spindle (top) are 5mm wider than the previous revision 137mm spindle (bottom).

Also, the Ai compatible 137mm spindle IS compatible with non-Ai Hollowgram MTN cranksets. However, the older revision spider is not Ai compatible.

OPTION 1: WARRANTY

ABOUT THIS OPTION

Cannondale has developed the next step of its lifetime warranty program to provide your business and our consumers with improved service and better communication.

Consumers will get the best warranty coverage in the industry by registering their bike online. When register their new Cannondale bike within 90 days of purchase, the two-year warranty coverage will get extended to a lifetime warranty.

CANNONDALE LIMITED WARRANTY

Cannondale HEADSHOK (SUPERMAX, LEFTY, LEFTY HYBRID, FATTY, and SOLO) suspension products are covered under the terms and conditions of the Cannondale Limited Warranty found in the CSG WARRANTY PROCESS section of this TECH BOOK or on the Policies page of our Cannondale website at: <http://www.cannondale.com>

Be sure to read the exclusions listed in the limited warranty. For example, damage from accidents and improper maintenance are not covered.

DEFINITIONS RELATED TO HEADSHOK PRODUCTS:

The fork structure is covered in the FRAMES section of the Cannondale Limited Warranty.

“Fork structure” means certain structural parts of the fork, specifically the fork legs, outer tube, the steerer tube, steerer tube clamps and the inner tubes with attached dropouts or spindle. Cable clamps, needle bearings, races, and bushings which are part of the TELESopic assembly are normal wear and tear items and ARE NOT covered by the limited lifetime warranty.

The internal fork parts are covered by the 1 year (2 years in EU countries) warranty against defects in materials or workmanship described in the COMPONENTS section of the Cannondale Limited Warranty. “Internal fork parts” are defined as items such as damping cartridges and their internal parts, seals, o-rings, air cylinders, air pistons, springs, elastomers, bumpers, bushings, needle bearings, races, and oil. Normal wear and tear on these items is NOT covered by this 1 year (2 in EU) warranty. Like brake pads on a car, you should expect to have wear items professionally replaced or renewed as you use the fork.

SUBMITTING A WARRANTY CLAIM

For any warranty claim to be considered, the bicycle/fork must be brought into an Authorized Cannondale Retailer on the continent on which the bicycle/fork was purchased. The bicycle/fork must be in assembled condition and accompanied by the original, dated sales receipt for the bicycle/fork.

Dealer Locator at: <http://www.cannondale.com/Dealerlocator>

PLEASE DON'T IGNORE MAINTENANCE REQUIREMENTS

Neglected maintenance will result in damage which is not covered under the Cannondale Limited Warranty. Recommended maintenance schedules for the specific product must be followed.

Racing can put additional strain on components and more frequent service is suggested for best performance.

ABOUT THIS OPTION

OPTION 2 is a basic damping cartridge exchange or swop where the old cartridge is removed and a new one is reinstalled. Please note that this is a like-for-like program. Internal components must be replaced with the same parts. See the table below, or call for current cartridge availability. If a "like" cartridge for a particular older fork is obsolete, it still may be servicable under OPTION 3 - DAMPER UPGRADE.

KEY BENEFITS:

- Can be performed quickly In-shop or via Headshok Service Center
- Eliminates damping cartidge disassembly headaches
- A damping cartridge can be removed and reinstalled without removing the fork from the bike.
- Why an exchange program? Once the season starts people realize that their bike/suspension needs service. This usually results in congested workshops and delay. This method enables participating shops with the parts on-hand to perform the service quickly.
- All damping cartridges are completely new units. Removed dampers sent back to us are simply destroyed and sent for recycling.

Considering that an exchange cost is similar to an average service, this is the ultimate in fork service. Customer can call ahead for a participating Cannondale Dealer and schedule an appointment. No need to wait.

Please note: The SOLO AIR assemblies (not shown on the picture at right) are available as separate kits and are not provided with exchange cartridges. We recommend that the old solo air assembly is also renewed at the time the cartridge is replaced. Consult the kits list page for the fork to determine the correct assembly.

Also, if you are performing a cartridge exchange, you will need the service tools associated with the particular damper. These tools are listed in this tech book.

If a damping cartridge is not shown with the XLR or PBR control at right, it must be removed from the existing cartridge.

OPTION 3: DAMPER UPGRADE

ABOUT THIS OPTION

OPTION 3 enables the upgrade of ++older model LEFTYs produced between 2005-2014 with a PBR or XLR damping cartridge. This process involves removing the existing cartridge and related parts from the telescope and replacing removed components with a new cartridge and related internals.

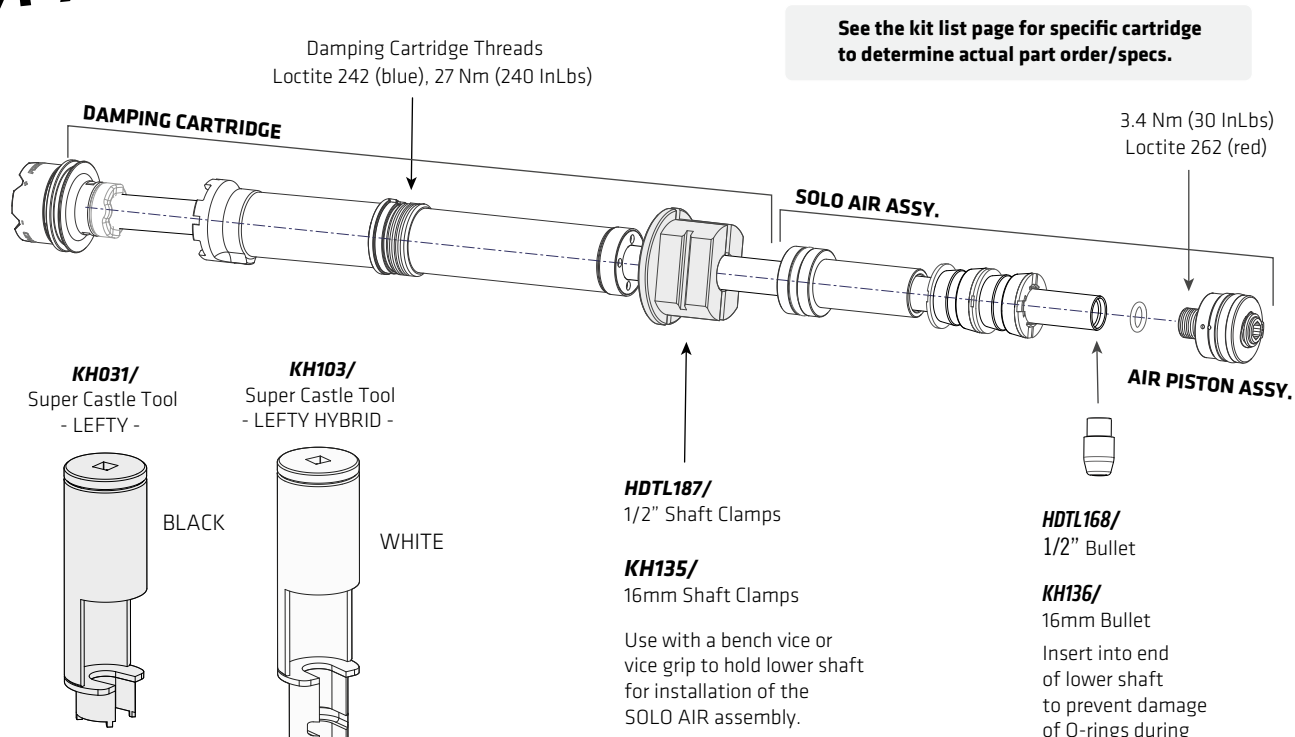

KEY BENEFITS:

- Can be performed In-shop or via Headshok Service Center
- Damper cartridge disassembly is avoided.
- Upgrading an older model by removing the existing cartridge and replacing with the compatible XLR/PBR cartridge and associated parts is a great way to both renew and improve performance.
- Travel is maintained in most upgrade cases, although a small reduction may result.
- An upgrade using the parts kits listed in the chart (next page) can easily be performed by Authorized Cannondale Dealers or by sending the fork to our Authorized Headshok Service Centers.

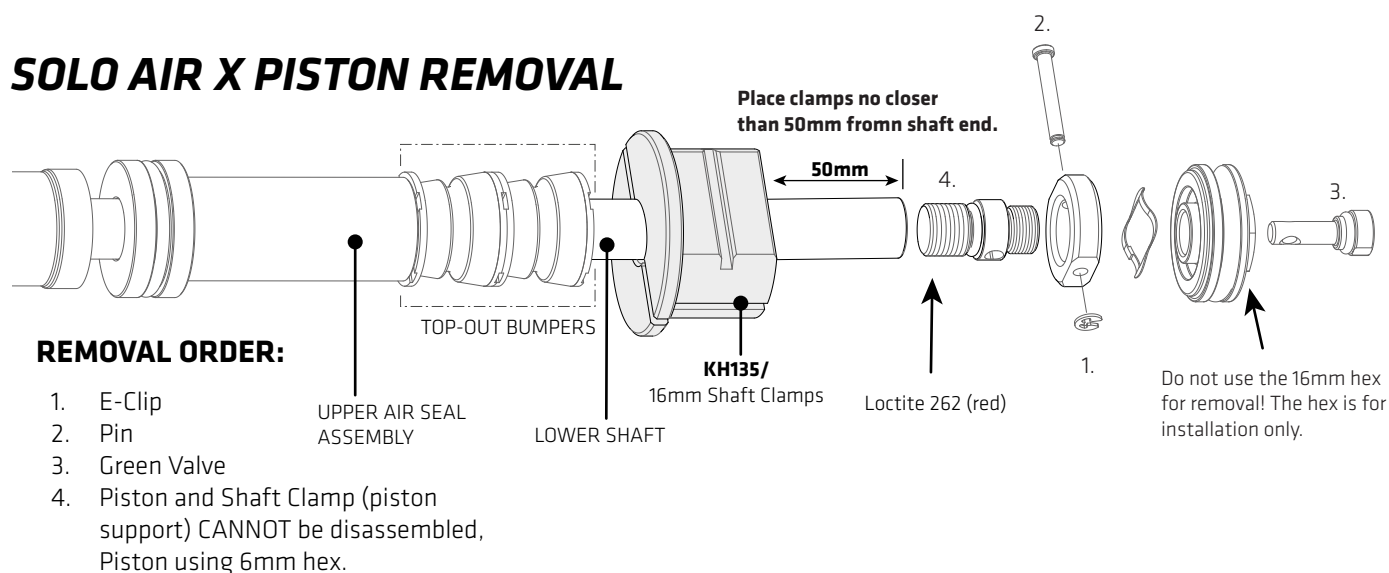

HOW TO DETERMINE COMPATABILITY

1. Identify the YEAR, MODEL, and TRAVEL of the LEFTY (produced 2005-2014).
2. Find the YEAR, MODEL, and TRAVEL of the fork in the **DAMPER UPGRADE COMPATIBILITY CHART**. This chart lists the various parts that are needed to make the upgrade. Simply order the corresponding kit codes (shown in shaded areas).
3. Remove the existing LEFTY internals and inspect the I.D. of the inner leg. If scratches or blemishes are found on the inner leg, it should be replaced. If this is the case, the upgrade must be performed by our service center and require a new inner leg.
4. Prepare the damper: Install the correct SOLO AIR assembly. (See the specific Kits List page of the LEFTY for proper orientation of the assembly parts.) Our Tech Department can help you. Use a bench vice with appropriate shaft clamp tool to install the assembly. Apply Loctite 262 (red) to the piston threads and tighten to 3.4 Nm.
5. All LEFTYs using a PBR or XLR damping cartridge require the use of a race retention system. Identify whether the LEFTY requires the use of either a "Clip-Clip," "Clip Spacer," or "Spiral Ring" (see RACE RETENTION IDENTIFICATION).
6. Apply Loctite 242 (blue) to the cartridge body threads and lubricate SOLO AIR piston assembly with a combination of high-quality bicycle grease and air piston lube. Install the damper using the appropriate castle tool. Tighten with a torque wrench to 27 Nm.

MANUAL RESET PROCEDURE

PERFORM EVERY 50 HOURS

NOTICE:

Do not open the upper collar for the manual reset procedure.

1. With your bike on the floor.
2. Cover the brake rotor with a clean shop towel. Remove the Schrader valve cap and hold the valve to release all air pressure. It is normal for a small amount of oil to be expelled with the escaping air.

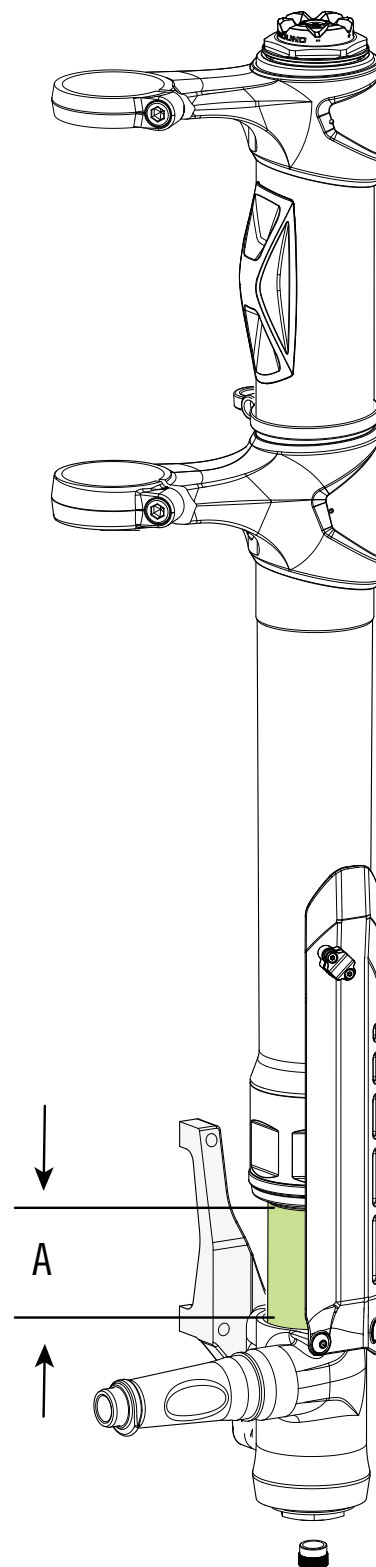

WARNING

Contamination can result in reduced or lost braking performance.

3. Hold the valve open while fully compressing the LEFTY with the the handlebar until it bottoms out. With the air out, using moderate force, bottom out the LEFTY firmly several times.
4. Now, measure from the bottom of the spindle to the top of the outer collar. Repeat step three until the correct measurement for your LEFTY is reached.
5. When you are finished, reset sag.

SUPERMAX SUPERMAX 2.0	LENGTH (A)
160mm/27.5	20mm +/- 3
140mm/27.5	20mm +/- 3
130mm/29	35mm +/- 3
LEFTY/LEFTY 2.0	LENGTH (A)
100mm/29	35mm +/- 3

Measure Fully Compressed

Sag is the distance the LEFTY 2.0 compresses when the bike is statically loaded with your body weight in your riding position. Set it according to the LEFTY 2.0 travel. Sag is set by changing the air pressure through the Schrader valve at the bottom of the LEFTY 2.0

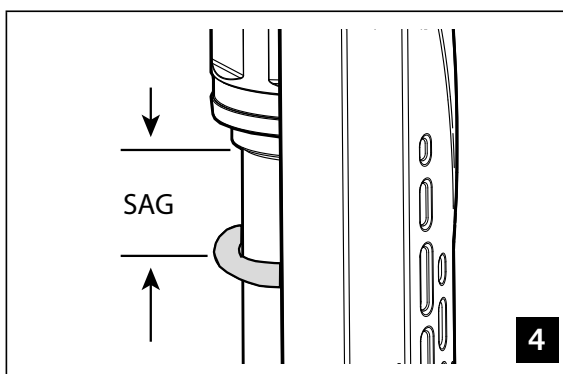

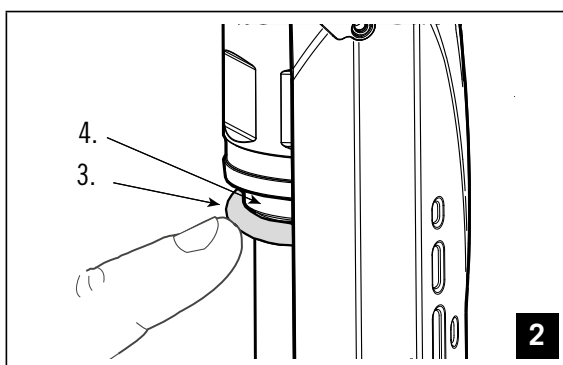

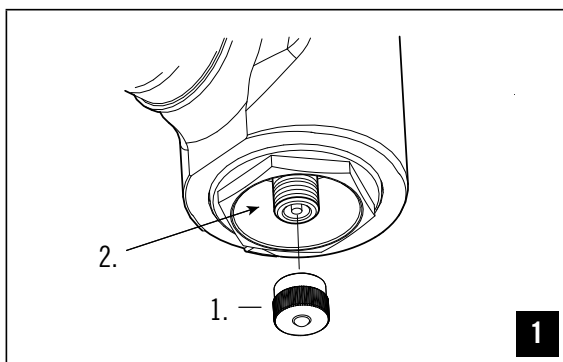

Be aware that conventional pump gages have variations. Therefore, we recommend you to fine tune your set up with the Recommended Sag.

RECOMENDED SAG MM		25	20	45-50	40-45	37-42
LOW PRESSURE LIMITS:		50	50	50	50	50
HIGH PRESSURE LIMITS:		225	225	225	225	225

TO SET SAG:

1. Remove the Schrader valve cap (1) at the bottom of the Supermax 2.0. Attach a bicycle suspension pump to the Schrader valve (2). **See Figure 1.**
2. Set the recommended initial starting air pressure according to your weight.
3. Slide the sag O-ring (3) against the wiper seal (4). **See Figure 2.**
3. Sit on bike in riding position and dismount.
Note: Your riding position affects weight distribution and therefore sag. For example, in the "Attack" position (**Figure 3**), the rider's weight is distributed equally front and rear.
4. Measure the sag distance. **See Figure 4.**

SAG TROUBLE SHOOTING

Too much sag	add air in small increments
Too little sag	reduce air in small increments
Excessive bottom out	increasing air pressure
harsh ride or limited travel	reduce air pressure

NOTICE

A dirty pump or valve end can result in contamination, damage, and air loss. Make sure pump and valve are clean before attachment.

BRAKE LINE ROUTING INSTRUCTIONS

Observe these important points when routing the front brake line:

1. To protect from wear/abrasion damage you should apply adhesive protections between any line or cable that may rub or contact the SUPERMAX/LEFTY. Persistent contact can result in serious damage not covered by the limited warranty.
2. Route the brake line in a vertical path from the upper brake line clamp, lower brake line clamp and guard guide as shown. This is the best way to ensure smooth movement during travel.

At the guard guide: Always make sure the brake line is saddled vertically in the guide (see „YES“). The line MUST also be secured/fixed firmly with a 3mm zip tie to prevent slippage. Position tie head against guide as shown.

NOTICE

Tighten with a zip tie tool. Insufficient tie tension (fingers only) can permit line movement in the guide.

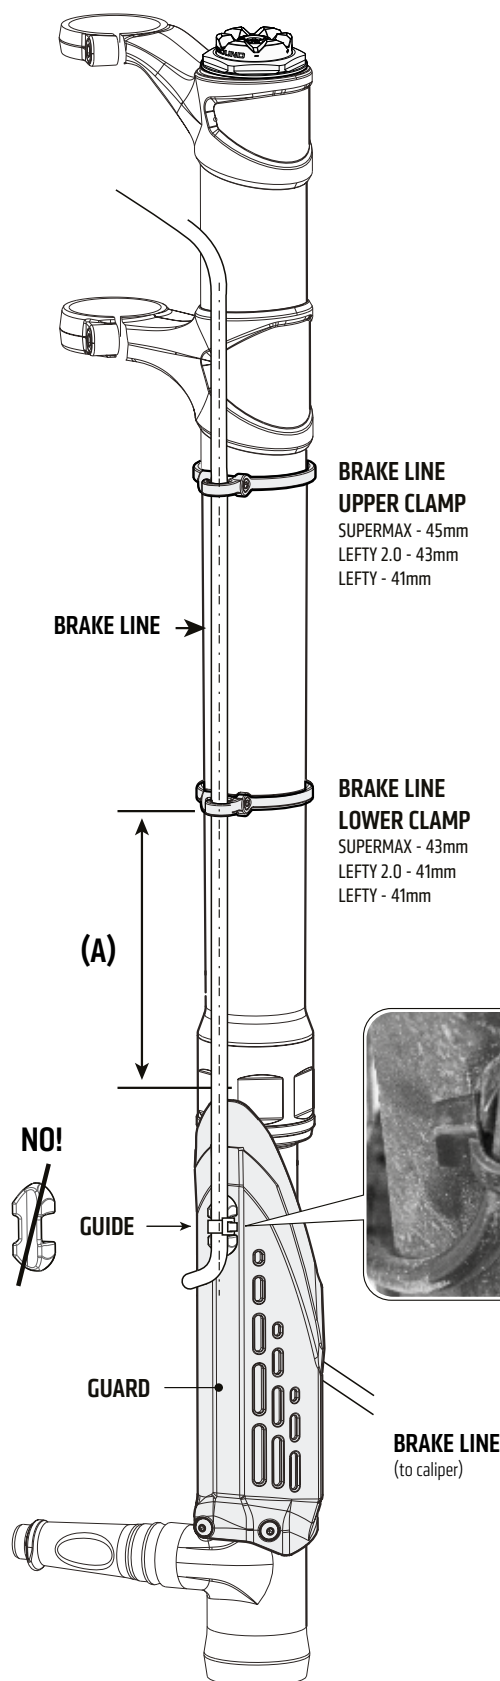

3. After the guide, route the brake line behind to the caliper as shown. It may be necessary to adjust the disc brake caliper banjo bolt for the best routing path. Follow the brake manufacturer's instructions when adjusting and re-tightening the brake line to the caliper (banjo bolt).

MINIMUM BRAKE LINE CLAMP HEIGHT - (A)

(from the top of the GUARD to the LOWER CLAMP)

To prevent the guard from contact with the brake line clamp during movement, position the lower clamp according to the table below.

SUPERMAX	(A)
SUPERMAX 2.0	Travel + 30mm
160mm/27.5	190mm
140mm/27.5	170mm
130mm/29	160mm
LEFTY 2.0	
100mm/29	130mm

LEFTY 2.0 OIL CYLINDER ADAPTER INSTRUCTIONS

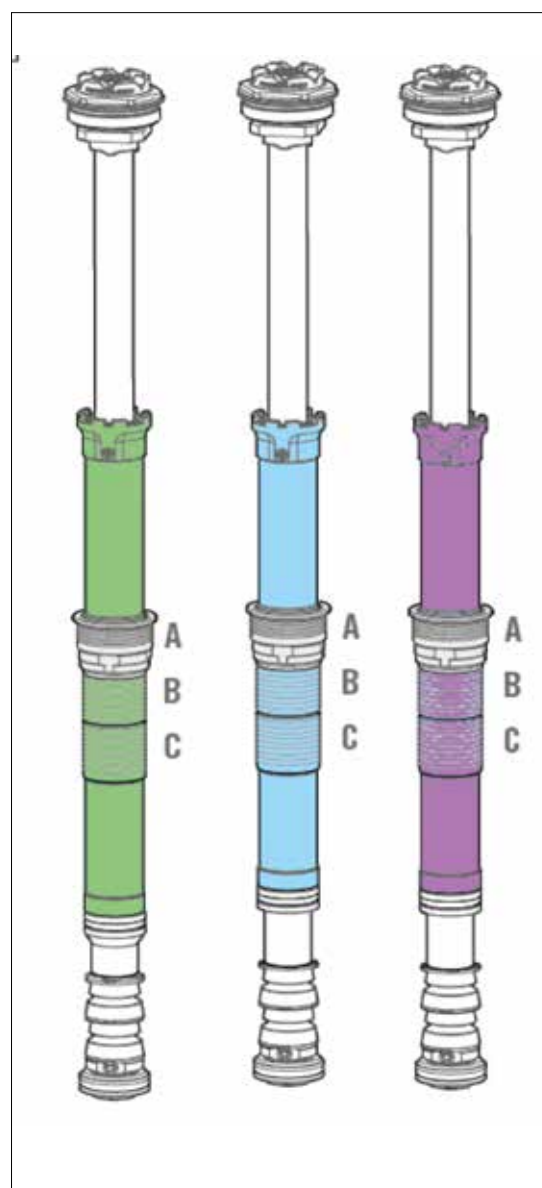

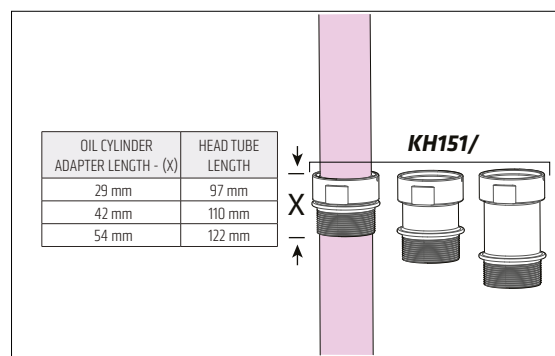

For the 2.0 damper generation an additional oil cylinder adapter is on the cartridge. This additional oil cylinder need to be at the correct position or the correct length on the cartridge for the correct headtube lenght. See table

LEFTY 2.0			
FRAME SIZE	HEADTUBE LENGTH SI	CLAMP SPCING	OIL CYLINDER ADAPTER LENGTH (X)
SMALL	97	100.2	29
MEDIUM	97	100.2	29
LARGE	122.4	125.6	42
X-LARGE	134.4	137.6	54

SUPERMAX 2.0			
FRAME SIZE	HEADTUBE LENGTH SI	CLAMP SPCING	OIL CYLINDER ADAPTER LENGTH (X)
SMALL	97	100.2	A
MEDIUM	97	112.9	A
LARGE	122.4	125.6	B
X-LARGE	134.4	137.6	B

NOTICE:

USE ONLY THE ADAPTER INDICATED FOR THE HEADTUBE LENGTH. DO NOT MODIFY THE DAMPER IN ANY WAY.

CSG WARRANTY CLAIM PROCESS

GENERAL INFORMATION

Cycling Sports Group has made investments to improve our Customer Service and ensure Warranty issues are resolved in an efficient manner so that our consumers can get back on the road or trail as quickly as possible. We know that having your bike or other product not functioning is never convenient so we implemented a new process and are providing you, the dealer, with this guide that outlines what your expectations from us should be as well as what we need from you in order to resolve all product related issues as painlessly as possible. We will continue to strive for improvements in our service, but here are the steps we are taking right now.

- **New B2B Warranty Module for creating and tracking your claims**
- **Expanded Warranty/Technical Support Team**

WARRANTY QUALIFICATION

- Warranty is valid for the original owner only. CSG requires proof of purchase before honoring any warranty claims.
- All warranty claims must be submitted through an Authorized CSG Dealer that supports the associated brand.

WARRANTY GUIDELINES BY CATEGORY

CATEGORY	MANUFACTURERS DEFECT	FRAME EXCHANGE (Discount available for non-warranty issue)**	WARRANTY UPGRADE (product upgrade at discounted price for warranty issue)**
Bike – Frame Cannondale	Lifetime - Manufacturers Defect *	Yes	Yes
Bike – Component	Manufactures Warranty	Does Not Apply	Does Not Apply
Lefty / Head Shock	1 year internals, Lifetime Structure – Manufacturers Defect	Yes	Yes
Cannondale Branded Crank Sets	Lifetime – Manufacturers Defect	Does Not Apply	Does Not Apply
Apparel and Accessories	Lifetime - Manufacturers Defect	Does Not Apply	Does Not Apply
Helmets	1 year	Yes	Does Not Apply

* Some exclusions apply, see Cannondale Bicycle Owner's Manual.

** See Aftermarket Frame Sheets for available options and pricing.

The specific warranty covering your Cannondale bicycle is governed by the law of the state or country in which it was purchased, and applies only to bicycles purchased from Authorized Cannondale Retailers.

FRAMES: (frame, fork structure, swing arm): Cannondale frames (except frames for Freeride, and Dirt Jumping bikes, see below) are warranted by Cycling Sports Group, Inc., 1 Cannondale Way, Wilton CT, 06897 against manufacturing defects in materials and/or workmanship for the lifetime of the original owner.

Cannondale frames for Freeride & Dirt Jumping bikes (such as Gemini, Gemini DH, Judge, Perp and Chase) are warranted against manufacturing defects in materials and/or workmanship for a period of three (3) years from the date of original retail purchase. The Freeride / Dirt Jumping warranty does not cover any Freeride / Dirt Jumping bike purchased and used for rental purchase. The Freeride / Dirt Jumping warranty differs from the warranty as stated in the Cannondale Owner's Manual only in its term. All other conditions apply.

COMPONENTS: All other components, including HeadShok and Lefty internal parts, suspension parts, frame fixtures and finishes (paint and decals) are warranted against manufacturing defects in materials and/or workmanship for a period of one year from the date of original retail purchase. Components used on rental fleet bikes are not covered by this one year warranty.

Suspension forks (other than those made by Cannondale) are not covered by this limited warranty, but are separately covered by the stated warranty of their manufacturer.

TERMS OF LIMITED WARRANTY

This limited warranty is not meant to suggest or imply that the bicycle cannot be broken or will last forever. It does mean that the bicycle is covered subject to the terms of the limited warranty.

This limited warranty applies only to the original owner of a Cannondale bicycle and is not transferable to subsequent owners.

For any warranty claim to be considered, the bicycle must be brought in to an Authorized Cannondale Bicycle Retailer on the same continent on which the bicycle was purchased. The bicycle must be in assembled condition and accompanied by the original, dated sales receipt for the bicycle. (Be sure to keep your receipt in a safe place.)

This limited warranty is void if the bicycle is subjected to abuse, neglect, improper repair, improper maintenance, alteration, modification, an accident or other abnormal, excessive, or improper use.

This limited warranty is void if the bicycle is subjected to abuse, neglect, improper repair, improper maintenance, alteration, modification, an accident or other abnormal, excessive, or improper use.

This limited warranty applies only to bicycles purchased in fully assembled and adjusted condition from Authorized Cannondale Retailers or other outlets specifically authorized by Cannondale to distribute Cannondale bicycles.

Damage resulting from normal wear and tear, including the results of fatigue, is not covered. Fatigue damage is a symptom of the frame being worn out through normal use. It is one kind of normal wear and tear, and it is the owner's responsibility to inspect his/her bicycle. See Section 5. and D.

Damage resulting from corrosion is not covered.

Damage resulting from improper assembly or maintenance, or from installation of parts and accessories not compatible with the Cannondale bicycle, is not covered.

All labor charges for warranty service, including the transfer of components and/or any installation of new components, are the responsibility of the bicycle's owner.

Due to product evolution and obsolescence, some components may not be available for older models. In these cases, sourcing and paying for components is the responsibility of the bicycle owner.

During the duration of this limited warranty, CYCLING SPORTS GROUP, INC., will either repair any defective frame or component, or, at our option, replace any defective frame or component with the same or most nearly comparable model or component then available. THIS IS THE EXCLUSIVE REMEDY UNDER THIS WARRANTY. ANY AND ALL OTHER REMEDIES AND DAMAGES THAT MAY OTHERWISE BE APPLICABLE ARE EXCLUDED, INCLUDING, BUT NOT LIMITED TO, INCIDENTAL OR CONSEQUENTIAL DAMAGES OR PUNITIVE DAMAGES.

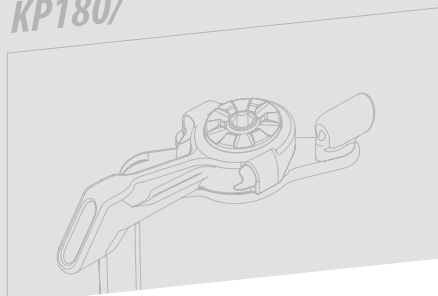

THIS IS THE ONLY WARRANTY MADE BY CYCLING SPORTS GROUP, INC., ON ITS FRAMES AND COMPONENTS, AND THERE ARE NO WARRANTIES WHICH EXTEND BEYOND THE DESCRIPTION HEREIN. ANY WARRANTIES THAT MAY OTHERWISE BE IMPLIED BY LAW INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, ARE EXCLUDED.

Please refer to the documents included with your bicycle for possible further restrictions.

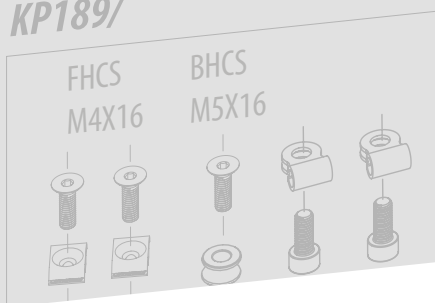

This Limited Warranty gives the consumer specific legal rights. The consumer may also have other legal rights which vary from state to state or country to country. Some states and countries do not allow the exclusion or limitation of incidental or consequential damages or warranties, so the above limitations or exclusions may not apply to you. If it is determined by a court of competent jurisdiction that a certain provision of this limited warranty does not apply, such determination shall not affect any other provision of this limited warranty and all other provisions shall remain in effect.
